

BASIC PARAMETER

Products are manually measured, there is a little error, please make the object as the standard

Pliers weight: 0.14kg

Pliers (with packing) weight: 0.20kg

REINFORCED SILK SCISSORS

Military grade stainless steel clamp body

High temperature quenching,
sharp wear-resisting edge,
through 21 processes
grinding forging

COMES WITH CLEANING COTTON

Wipe off the coating layer on the optical fiber
rotatable and replaceable(using 3mm hexagon socket screws)

Press and dip alcohol
swivel, reusable, replaceable
(4 complimentary)

ROTATE THE SCALE

The scale can rotate for precise measurement of fiber size

WIRE STRIPPING PLIERS

Both regular leather fiber and 5G leather fiber can be used

5G leather fiber

Caliber: 2mm x 1.6mm

**Both regular
leather fiber**

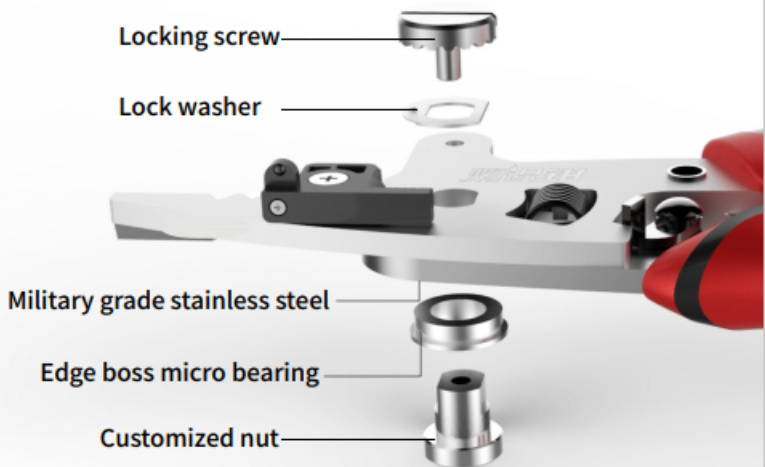

Caliber: 3mm x 2mm

THREE-PORT MILLER STRIPPER

Sharp edge, fast stripping
fiber, no damage to fiber
core

COMPOSITE CENTER ANTI SLIP SHAFT SYSTEM

THE EIGHT PRACTICAL FUNCTION

Work More Efficiently More Convenient To Carry

Signal Fire stripper always worth your appreciation,
and we bow here to express our gratitude!

**Wire stripping
pliers**

Caliber: 2mm x 1.6mm

**Wire stripping
pliers**

Caliber: 3mmx2mm

Rotate the scale

Scissors

Three-port Miller stripper

**Cleaning
cotton**

We exhaust our minds **only for extraordinary design and practical manufacturing**

We enable users to achieve maximum results with minimal effort.

Signal fire stripper is another effort by us. It combines Miller pliers, two specifications of leather wire stripping pliers, alcohol cleaning cotton, reinforced wire scissors, fiber optic rulers, six types of tools, and eight functions into a very lightweight tool, making the users relaxed and comfortable from now on.

Signal fire stripper is also a high standard tool, using military grade stainless steel pliers. For the first time, the composite center anti slip shaft system, which is only used for luxury tools, has been applied in the field of optical fiber tools, allowing customers to fully enjoy the production standards of aerospace technology.

Our name is SIGNAL FIRE, and we never plagiarize. We only make inventions

so you can see on this Signal fire stripper three approved Chinese patents, one EU patent, and one pending US patent. This is the crystallization of expertise and a feast of knowledge. Signal fire stripper always worth your appreciation, and we bow here to express our gratitude!

ZSQ-08

SIGNAL FIRE STRIPPER

8-IN-1 OPTICAL FIBER STRIPPER

- ✓ Three-port Miller stripper
- ✓ Wire stripping pliers
- ✓ Rotate the scale
- ✓ Cleaning cotton
- ✓ Scissors
